

This figure is a cadastral map of a residential area. The map displays a grid of property lots, each labeled with a unique identification number. A large section of the map, covering approximately 60% of the area, is shaded in green. This shaded area includes several streets: Huttenbergweg at the top, Brunnengasse in the upper-middle, Heideweg in the middle-right, Spessartstraße in the lower-middle, and Blumenweg running vertically on the right side of the shaded area. The lots within the shaded area are densely packed and many contain small, numbered building footprints. Outside the shaded area, the lots are larger and more sparsely populated with buildings. The map also shows various boundary lines, easements, and other geographical features. The overall layout suggests a planned residential development or a specific land acquisition project.
